FOOD SERVICES LLC

BETTER CHOICE FOR SERVICE...

When our company began five years ago, every customer we contacted had vending services.

We knew excellent customer service was key to gaining new clients and earning their loyalty.

As a result, we outperform our competitors using outstanding service. By keeping machines stocked and maintained, letting our customers select their products, and always presenting service with a smile.

This practical and honest approach paid off for us.

To date we have convinced a multitude of companies to allow us to serve as their vendors without losing a single one back to a competitor.

This is something our team is most proud of.

"We've used many snack and food venders over the last 12 years. I have finally found one that is highly customer service oriented. Their equipment is state of the art and notifies them if any issues arise. Response time is impeccable. They keep the machines clean and well stocked. The employees and myself are more than happy with the service Better Choice Food Services has provided our firm."

Mike Hansen (Facilities Manager)
SOUNDOFF SIGNAL

BETTER CHOICE FOR SNACKS...

We started out as a healthy only vending company. Even though we evolved into a full-service company that offers every type of snack, we have not forgotten our roots. We offer a very large selection of healthy options. If we do not have it, we will do everything possible to get it. We do not sign contracts with any single distributor, allowing us to sell what you want. From sandwiches, salads, frozen treats, chips, candy, and drinks, you will not find a better choice.

"We love the credit card readers. We love the customer service. We love the snacks."

Jim Van Dorp (Operations Manager)
REFLECTIVE ART INC.

"We've been so impressed with the appearance and technology of their machines. They are always stocked and always clean."

John K. Pitsch III (Owner/Fitness Professional)
MAXIMUS FITNESS

BETTER CHOICE FOR MACHINES...

If you sign on with us as a first-time customer, we guarantee a brand new machine straight off the factory floor. We are confident that there isn't another company that offers this. Our company has taken advantage of the latest technology. All our machines have the ability to take cash, credit card, and cashless transactions. Most importantly, we currently monitor our machines with remote technology; if there ever is a problem, there's a very good chance we will know about it before you do.

ABOUT US...

We started in 2012 as a healthy only vending company. After requests from our customers to provide all their vending instead of only their healthy options, we have evolved into a full service vending company. We currently provide vending of all types over West Michigan. We have a 100% rate of never losing a customer. Better Choice Food Services, the better choice for vending!
